

Working Together for Successful Storm Water Management

A Workshop for Clean Water and
Phase II Storm Water Compliance

Presenting
The Model Urban Runoff Program

**April 30, 2002
8:30 a.m. – 5:00 p.m.
Joseph Room
Solano County Library
505 Santa Clara St.
Vallejo, CA**

Workshop Sponsored by:

California Coastal Commission, and Vallejo Sanitation and Flood Control District

The Model Urban Runoff Program

The Model Urban Runoff Program (MURP) is a "how-to" manual and associated workshops that will guide small municipalities in developing, financing, implementing, and enforcing a comprehensive program for managing urban runoff and improving water quality.

Many smaller cities will soon be required to have a permitted urban runoff management program, under the EPA's NPDES Phase II Storm Water program. The MURP encourages a watershed management strategy for controlling urban runoff pollution, while incorporating the necessary elements that small municipalities will be required to address by the storm water regulations.

This workshop will introduce you to the steps involved in developing an urban runoff program, and provide examples from existing programs, including: program development strategies, cost estimates and funding options, public outreach materials, and best management practices (BMPs). This workshop also provides a forum for sharing stormwater management strategies with other communities.

Who Should Attend?

This workshop is intended for city, county, and other agency staff responsible for designing, managing, or implementing urban runoff control programs. It is particularly targeted toward small municipalities that will be subject to Phase II storm water regulations.

We encourage the participation of your municipal managers and staff --including planning, environmental services, public works, and facilities departments.

Special districts, college facility managers, and local environmental and water quality organizations are also encouraged to attend.

Registration Fee: \$25.00

The workshop registration fee covers the cost of the workshop, lunch, refreshments, and workshop materials. Scholarships are available. Payment may be made in advance or at the door.

Make Payments (no credit cards) to:

Friends of the San Francisco Estuary
P.O. Box 791
Oakland, CA 94604-0791
(Tax ID number 680265026)

**** Space is limited****

**** Pre-registration is required by Monday April 22, 2002****

To register, please contact:

Jack Betourne, Storm Water Program Coordinator
Vallejo Sanitation and Flood Control District
450 Ryder Street
Vallejo, CA 94590-7299
Phone: (707) 644-8949 ext. 267
Fax: (707) 644-8975
E-mail: jbetourne@vsfcd.com

Please provide the following registration information:

- Name; Affiliation and Job Title; Address; E-mail Address; Telephone
- Do you require a vegetarian lunch?

Workshop Agenda

8:30 - 9:00	<u>Registration and Refreshments</u>
9:00 - 9:10	<u>Welcome and Introduction</u> <i>- Jack Betourne, Vallejo Sanitation and Flood Control District</i>
9:10 - 9:25	<u>Keynote Address: What is Polluted Urban Runoff, and Why is it a Problem?</u> <i>- Geoff Brosseau, BASMAA</i>
9:25 - 9:45	<u>How is Urban Runoff Regulated?</u> <i>- Margie Lopez-Read, State Water Resources Control Board</i> A brief summary of the best approach to the urban runoff regulatory process.
9:45 - 10:00	<u>Introduction to the Model Urban Runoff Program</u> <i>- Vanessa Metz, California Coastal Commission</i> Introducing MURP, a “how-to” guide for developing a comprehensive urban runoff program tailored to your community’s water quality concerns.
10:00 - 10:30	<u>Getting Started in MURP-- NPDES Phase II Regulatory, Organizational, and Assessment Requirements</u> <i>-Jennifer Gonzalez, City of Monterey Public Works</i> Tips and tools for getting your program past the initial "What Am I Doing?" reaction to stormwater management. This session will get you started in assessing your existing problems, resources, and strengths and will give you additional tools and resources for developing program management structure and legal authority.
10:30 - 10:45	Break
10:45 - 11:05	<u>Phase II Storm Water Program</u> <i>- Bruce Fujimoto, State Water Resources Control Board</i> A description of the NPDES Phase II Storm Water permit program for small municipalities.
11:05 - 11:45	<u>Permitting and Reporting: The Process and Requirements</u> <i>- Marla Lafer, S.F. Bay Regional Water Quality Control Board</i> A guide to the permitting, evaluating, and reporting process and requirements for Phase II MS4 permits.
11:45 – 12:00	<u>Regional Coordination</u> <i>- Geoff Broseau, BASMAA</i> How municipalities can coordinate for successful stormwater management and Phase II compliance.
12:00 – 12:15	<u>Audience Questions</u> for any of the morning speakers
12:15 - 1:00	Lunch (provided)

Workshop Agenda, continued

The afternoon presentations provide an introduction to the 6 minimum control measures required for Phase II storm water compliance.

- 1:00 - 1:30** **Public Education and Participation**
- Sharon Gosselin, Alameda County Clean Water Program
How to develop and implement an effective program for stormwater public education, and provide opportunities for active public participation.
- 1:30 - 2:00** **Pollution Prevention/good Housekeeping in Municipal Operations**
- Liz Lewis, Marin County Stormwater Program
Designing a cost-effective operations and maintenance program to reduce polluted runoff from municipal operations.
- 2:00 - 2:30** **Illicit Discharge Detection and Elimination**
- Jack Betourne, Vallejo Sanitation and Flood Control District
Developing a program to control or eliminate non-stormwater discharges to the storm drain system.
- 2:30 - 2:45** **Break**
- 2:45 - 3:15** **Construction Site Runoff Control**
- Hossain Kazemi, S.F. Bay Regional Water Quality Control Board
Basics of developing a municipal control program to reduce polluted runoff from construction sites.
- 3:15 - 3:45** **Post-Construction Runoff Control in Development and Redevelopment**
- Tom Dalziel, Contra Costa County Clean Water Program
An introduction to planning and design to minimize post-construction runoff from development and redevelopment.
- 3:45 - 4:30** **Cost Analysis and Funding Options-- NPDES Phase II and Stormwater Utility Fees**
- Jennifer Gonzalez, City of Monterey Public Works
How to fund your stormwater program, plus cost analysis for the implementation of Monterey's Phase II program.
- 4:30 - 4:35** **Closing and Next Steps**
- 4:35 – 5:00** **Audience Questions** for any of the speakers

Workshop Location:

Solano County Library, Joseph Room
505 Santa Clara St., Vallejo, CA

**Parking is available to the North and West of the Library
